

Pokemon, meaning Pocket Monsters in Japanese, is a fun trading card game that stresses math and reading skills, problem solving, and good sportsmanship. Sure, the cards can be collected and traded, but have you ever tried the actual game? You will have the opportunity to learn how to create a deck and play the game. If you'd rather just show up and swap some cards with friends, that's okay too. We will have a few decks that can be used in Pokemon battles here, so don't worry if you haven't assembled your own. Join us after school on Wednesdays for Pokemon Club!

Grades : 3rd - 8th Fee: \$30 Time: 3:00 - 4:30

Dates: Jan 19, 26 / Feb 2, 9, 16, 23 / March 2

Student(s)name: _____

Grade: _____ Parent(s) name: _____
